RLX Digital tape measure with laser distance meter

The RLX combines a tape measure and a laser distance meter in one device. For flexible measurement of short and long distances – with direct digital transfer into the Solaflex measurement app.

Bluetooth

PREVENT MISTAKES & SAVE TIME

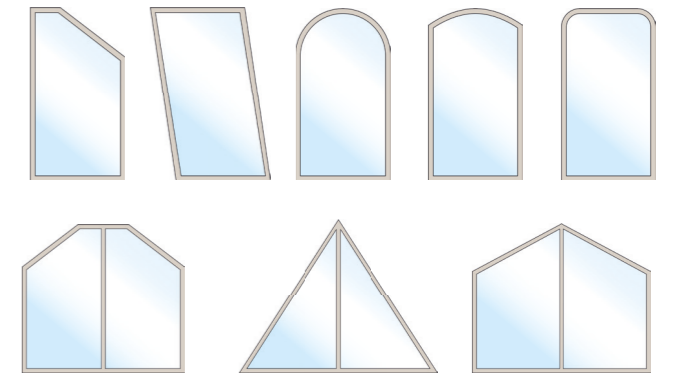

All project information at a glance

The digital measurement sheet simplifies standardized measuring, product specification, and the complete documentation of all relevant data. All information is stored digitally, accessible at any time, and can be exported as PDF, CSV, or JSON for seamless integration into ERP systems.

MEASURE SPECIAL SHAPES

With drawing mode, even complex window shapes can be captured precisely. Results can be exported as PDF or DXF files and transferred directly into CAD software or production workflows.
